SUMMARY OF STUDENT COMMENTS ON QUESTIONNAIRES (2011 only):

ANTH 468/568 Human Osteology, Fall 2011

- I enjoyed the bones analysis and the instruction for practicals. I would have liked to have reviewed the book material more or tied it in more with the lectures.

Curriculum Vitae—James T. Watson

- Wonderful teaching. Great real-life application and experience.
- I love the hands-on experience of identifying bones and being responsible for our own analysis at the end of the semester. I would prefer that we lecture about bones as we are looking at them. I'd like to see pictures on the overhead.
- Great instructor.

This is a true and accurate statement of my activities and accomplishments. I understand that misrepresentation in securing continuing status and promotion may lead to dismissal or suspension under ABOR Policy 6-301 I.2.b.
